PROFESSIONAL EXPERIENCE

Computação Brasil, Salvador, BA

Jan 2023 – Present

Developer Full Stack

- Development of a research project in the health area for wound recognition using computer vision techniques, with a mobile application using Flutter and for wound analysis OpenCV (Python).
- Development of management and ERP systems for various business segments (Commercial and Academic), in a web environment with ASP.NET MVC and microservices in the architecture and the front-end with HTML, CSS and Bootstrap. In the mobile environment I was part of the development team with Flutter.
- I work in agile teams using the Scrum methodology to manage and deliver projects.
- I have published an app on the Apple App Store and Google Play Store.
